Delivering enterprise architectures and solutions

- Holistic use of BPM, SOA, EA, ECM, IT governance and IT strategy for major international clients.
- Top quality design and delivery of IT services, enterprise-wide architectures and solutions.
- Creation of synergies between business goals and IT potentials.
- Effective communication of architectures to all stakeholders (from top management down).
- Visionary but realistic enterprise and business architect.
- Creation of production systems with built-in flexibility and extensibility.
- Experience in moving major enterprises to fully electronic (digital) working.
- Author of highly rated BPM and SOA bible on "Improving enterprise business process management systems" (see www.improving-BPM-systems.com/book).

Business Process Management (BPM) • Service-Oriented Architecture (SOA) • Creative thinking
Business architecture • Project management • Solutions development • IT strategy • IT governance
Team leadership • Effective communication • Problem solving • System evolution • Strategic planning • ITIL
Business process analysis • BPMN • Agile software development • Emerging technologies

PROFESSIONAL EXPERIENCE

AFRICAN DEVELOPMENT BANK, Tunis, Tunisia • 2010-Present (International financial organisation with 32 field offices and more than 2 000 employees)

Chief enterprise architect

Leading and supervising critical IT initiatives at the Bank. Main projects and activities:

- Introduction of project governance process for internal project management.
- Review of the Bank's enterprise architecture and definition of business architecture.
- Initiation and planning of a "Corporate ECM/SharePoint platform" project.
- Application of BPM principles for the implementation of ITIL v3.
- Development and maintenance of an EA repository in ARIS.
- Documentation of business processes for the functional migration of an SAP-based core-business system.
- Development of the Bank's IT strategy.
- Architecting of the Bank's progression to cloud computing.
- Implementation of fully electronic production and administration via a coordinated set of agile mini-projects.
- Introduction of BPM (from business and technical sides) into the SAP NetWeaver 7.3 development.

TEAMLOG (SUISSE) S.A., Geneva, Switzerland • 2007-2010 (IT consulting firm with 12 employees)

Enterprise architect & BPM coach for the State and Republic of Geneva • 2007-2009

Managed critical IT initiatives for the State of Geneva's IT department, comprising 600 employees and 35 000 users. Streamlined enterprise architecture by introducing process-based solutions. Main projects:

- Established global IT security principles.
- Ensured optimal performance of enterprise backup services encompassing 500 TB.
- Applied BPM/SOA principles to 30 MCHF cantonal e-government project.
- Provided training/seminars on BPM, SOA and EA.

BPM/SOA/EA consultant • 2007-2010

- Delivered BPMN-based training for European Directorate for Quality of Medicines and Health Care.
- Developed principles of Swiss e-government architecture.
- Lead a working group in the OMG BPM/SOA Integration community of practice.
- Delivered lectures for "Master Management des SI - Orientation BPM" education, HES-SO, Valais.

CLIO S.A., Geneva, Switzerland • 2006-2007 (IT consulting firm with 20 employees)
